

Welcome to Lam Dermatology's Patient Portal!

At Lam Dermatology, we offer our patients a way to participate in their healthcare through our Patient Portal. Upon scheduling your appointment, you will be given a username and password which gives you access to your healthcare information needs. Please access this site and complete the information as outlined below before your upcoming appointment: lamderm.ema.md

For security reasons, we highly recommend that you change the password provided immediately after logging into Portal. To do so, upon successful login, click on the yellow 'Reset Password' link located in the upper right hand corner of the screen. Your new password must contain at least one uppercase letter and one number. Your password is unique and gives you access to your medical records, so write it down in a safe location.

You are now able to start coordinating your healthcare information.

Note: Once you have changed your password using these instructions and for any reason require that password to be reset, you will need to stop by our office. For security reasons we will not be able to reset your password otherwise.
